Report

This land use amendment application was submitted by Tech View Homes LTD on September 16, 2020. This application proposes to change the designation of one parcel from (RF4) Semi-detached Residential Zone to (RF3) Small Scale Infill Development Zone to allow for:

- up to four units of multi-unit housing; and
- a maximum building height of 8.9 metres (the same as under the current zoning).

This proposal is in alignment with the applicable policies of CityPlan by aligning with the goals and policies to accommodate all future growth for an additional 1.25 million population within Edmonton’s existing boundaries. To do this, 50% of all new residential units are intended to be created at infill locations.

An associated application has been made to amend the Jasper Place Area Redevelopment Plan from Small Scale Housing (BY1) to Active Edge Housing (BY2) to allow for the development of row housing on the site (Bylaw 19544).

Public Engagement

Advance Notice was sent to surrounding property owners and the Britannia Youngstown Community League on October 20, 2020. One response was received and is summarized in the attached Administration Report.
